Technologies/Frameworks: GitHub, Laravel, WordPress, Windows, Mac OS, Linux, VMware, Node.js

Projects

Bakery Program app | VIU ITAS Web and Mobile Development

April 2023 – May 2023

- This was a large project taken on by me and one other classmate as a practicum.
- The purpose of this was to have a neat-looking mobile app for all of the bakery programs recipes since the bakery program currently uses Excel sheets to manage recipes.
- Built with Flutter in the Dart programming language.

Dog Sitting Website | Freelance Work

September 2023 – December 2023

- Website Built to allow my client to receive dog sitting requests with a back end to manage all of their requests.
- Built with HTML/CSS and React.js.
- Containerization with Docker.
- CI/CD and Testing with GitHub.
- Used Firebase as my NoSQL database.

PET SILO | IU SOFTWARE SYSTEMS ENGINEERING

April 2025 - May 2025

- Tamagotchi style game made in C playable in Terminal.
- This game was made to support [Sustainable Development Goal 3](<https://sdgs.un.org/goals/goal3>), which promotes good health and well-being for all.
- Created in VIM using C, with assistance from Microsoft Copilot, as required by project guidelines.

Work Experience

Historical Artcraft Theater

volunteer

2016 - 2018

Franklin, IN

VIU bakery program

web development

Summer of 2023

Nanaimo, BC

Freelance Work

web development: Dog Sitting Website

September 2023 - December 2023

Remote Work

Additional Qualifications
